

The Itchen Valley Litter Pick.

Please remember the Litter Pick on 21st March. It is part of the Great British Spring Clean. We start at 10am at the five assembly points, which are listed on the poster (on page?). After equipment is given out and the safety notices read out, litter picking will start and continue up to at least 11:30am when once as in previous years the ladies of the W.I. will be providing tea, coffee and cakes in Martyr Worth Village Hall. One change from previous years is that we are hoping to separate out recyclable materials like plastic bottles and tin cans. This will be done at the final collection point at Martyr Worthy Village Hall. Anyone who can help with this work will be welcome. As before we will be providing litter picking sticks, high vis vests and rubbish bags. If you have your own of any of these items please feel free to bring them. Please be sure to return all equipment we have provided as it has to be passed onto other groups in the district. This is now an established annual community event and it does make a great difference to the Valley, so please come along and join in.
