#### **Financial Risk Management**

#### **Notes**

Risk is an uncertain event or condition that, if it occurs, will affect the achievement of an authority's objectives. Risk management is the process whereby authorities methodically address the risks associated with what they do and the services which they provide. The focus of risk management is to identify what can go wrong and take proportionate steps to avoid this or successfully manage the consequences. Good risk management allows stakeholders to have increased confidence in the authority's corporate governance arrangements and its ability to deliver its priorities.

Risk management is not just about financial management; it is about protecting the achievement of objectives set by the authority to deliver high quality public services. Risk management is an ongoing activity that comprises four elements: identifying risks; assessing risks; addressing risks; and reviewing and reporting. The Parish Council uses the following matrix to assess the likelihood and severity of the risks it manages.

The table below is used by the Parish Council and the risk owners to assess risk.

|        |                           | SEVERITY            |                          |                              |                          |  |  |
|--------|---------------------------|---------------------|--------------------------|------------------------------|--------------------------|--|--|
|        |                           | ACCEPTABLE          | TOLERABLE                | UNDESIRABLE                  | INTOLERABLE              |  |  |
|        |                           | Little to no effect | Effects are felt but not | Serious impact to the course | Could result in disaster |  |  |
|        |                           | on event            | critical to outcome      | of action and outcome        |                          |  |  |
|        | IMPROBABLE                | LOW                 | MEDIUM                   | MEDIUM                       | HIGH                     |  |  |
