Dear Customer

A34/A33 Kings Worthy – River Itchen Bridge Repairs

We'll shortly be carrying out essential maintenance work to the bridge which carries the A33 link from Kings Worthy to the A34 southbound carriageway. Work will include replacement of the waterproofing material under the carriageway, maintenance to drainage and resurfacing.

Work is currently scheduled to start in May 2021 and is expected to be completed in August 2021.

For the safety of our workforce and customers, we will be closing a lane on the A33 link road with a temporary 40mph speed limit.

To install, amend and remove the traffic management, there will be occasional overnight closures of the A33 link between the B3047 London Road and the A34. The first overnight closure is scheduled to take place on Saturday 15 May 2021 (9pm to 6am). Further closures will be advertised on temporary signs on the A33.

For vehicles under 7.5 tonnes, a signed diversion will be in place via the B3047 to Alresford (through Itchen Abbas), then the A31 and the Spitfire Link back the M3 and A34.

Heavy Goods Vehicles (HGVs) will be diverted up the A33 to junction 7 of the M3, then south on the M3 to junction 9. This route is better suited to large vehicles.

Please note that these works are subject to change due to weather conditions or unforeseen circumstances. We'll advertise the closures on yellow signs placed in advance alongside the road.

I would like to apologise in advance for any inconvenience or disruption you may experience during this work.

If you have any questions, or if you would like to know about our work, please contact us on **0300 123 5000** or email info@highwaysengland.co.uk; alternatively please visit our webpage <https://highwaysengland.co.uk/our-work/south-east/south-east-maintenance-schemes/>

Yours faithfully

Area 3 Communications Team
